

HUG ME WITH YOUR WORDS

Think about your special skills and surprising abilities - from toe-typing to verbal hugging to Lámh or Makaton signing! How do you use your brains, creativity and abilities to get around in your world? Teach someone what you know, or draw a how-to manual for somebody else!

Multilingual Tip

Make up a non-verbal language, using only gestures. Pick 10 words and create movements and gestures to express their meaning. Try to make your language universal, so anyone in the world can learn it and understand it. Practice in front of a mirror and with your family.

Ask an adult: do you think these signs can work well in other cultures?
