

## SAM AND THE SHAPESHIFTERS

Let's see your finest self-portraits! You can draw, sculpt, make a collage - whatever you like! We believe our listeners are shape shifters, and some of them actually look a bit different on the inside than they do on the outside. So create your best, coolest, proudest portrait so people can get to know you in YOUR favourite shape!

### Multilingual Tip

What words would you use to describe yourself? Can you think of these in different languages? Write down these words in different languages that you know in your drawing.
